GHOSTPACK RIDING CLUB

THE GHOSTPACK BIBLE

FINAL 2026 PUBLIC EDITION

Document status	FINAL - 2026 GOVERNANCE & CULTURE UPDATE
Access	PUBLIC CULTURAL & EDUCATIONAL EDITION
Purpose	The public-facing statement of Ghostpack identity, history, culture, membership journey, etiquette, traditions and expectations without disclosing internal governance mechanics.
Authority	This Bible teaches Ghostpack culture and expectations. Internal governance questions are controlled by the Bylaws and authorized internal policy.

2026 LOCKED STANDARDS

• Public-facing culture; internal voting, council mechanics and reporting chains remain outside this edition.

• Membership journey reflects the 4-month Hang-Around and 8-month Prospect minimums.

• Power of the Pack is expressed as culture: local pride, regional loyalty, Pack first.

• Geographic identifiers communicate home and identity, not ownership, control or exclusivity.

• Permanent identity remains rooted in the GHOSTPACK name, three-wolf center patch, XV acknowledgment, and purple and white.

Who the Ghostpack Is For

The 300 Mentality

We don't need 300 members. We need members with the mentality of the 300. The strength of the Pack isn't measured by how many people wear the patch. It's measured by the character, loyalty, consistency and commitment of those who do. Every member should know that the person beside them will show up, carry their weight, protect the integrity of the Pack, and contribute to something bigger than themselves.

We don't chase numbers. We don't hand out patches simply to grow. We build slowly and intentionally. Hang-Arounds are observed, Prospects are developed, and Members are earned. Everyone has a role. Everyone contributes. Everyone matters.

We hold each other accountable without losing respect for individuality, family, careers and life outside the

club. Unity does not mean blindly agreeing — it means being able to disagree, resolve it and still move forward together.

This is what founder Sleepywolf and Vice President Kanaka discovered they wanted for this club — two crucial members who held and maintained this mentality from the very start, so much so that we lay it as the foundation and bare minimum for membership.

■ Quality over quantity. Commitment over convenience. Character over popularity. Unity without losing individuality. That's the 300 Mentality.

Who We Are Looking For

We are only seeking those who carry the following, and who show it through action rather than words:

• Discipline, brotherhood and loyalty.

• A self-growth mindset — non-stagnant, always working to become more.

• A priority placed on physical health and fitness.

• A person who sticks to their word and shows it with actions, not promises.

• A passion and desire in life, alongside the will to actually go after it.

This takes learning the Ghostpack Bible and completing the assessments necessary to move forward. If you can do these things above — and we consider them the bare minimum — and if answering some questions to prove you know your shit sounds like too much, then this club, and possibly even this lifestyle, is not for you.

These things make you a better person, a better rider, and a better sister or brother — in a club setting and in life in general. They will also save your life in a lot, if not most, of the situations you'll encounter in the club world. If this is too much, reconsider the life you're wanting to live and have the privilege to gain access to.

A Privilege, Not a Right

To be a member of any club is a privilege, not a right. Earn your way in — do not pay your way in, and do not lazily drag your ass into any club or clubhouse. Being lazy is not worth risking your life over by refusing to learn the things that every club, and every one of its members, has sweated, bled and worked for.

Respect the lifestyle. Ghostpack.

A Word from Sleepywolf — Founder

My name is Sleepywolf. If you know me, you already know I have never been the first one up in the morning.

I have missed alarms, overslept runs, and been the last one through the door more times than I care to

admit. That is where the name comes from. And I wear it with no shame — because the wolf who oversleeps still wakes up a wolf.

I want to tell you how this club came to be. Not the formal version — the real one. Because if you are holding this Bible, you deserve to know where it started.

I was a young pup who found his way into the orbit of one of the most remarkable people I have ever known

— the founder of the Xtreme Vixens MC, Shizuka Samurai. She was not just a rider. She was a leader, a teacher, a force of nature wrapped in purple and white. She did not have to take me in. But she did. She saw something in me before I saw it in myself, and she invested in me the way you invest in someone you love — without keeping score and without asking for anything back.

What grew between us was not mentorship in the traditional sense. It became something closer. Something like siblings. A brother and a sister bound not by blood but by the road, by the Set, by late nights talking about what this life really means and what it asks of you. She taught me protocol. She taught me respect. She taught me what it means to build something that outlives the moment you are standing in.

Shizuka Samurai is eternal. She does not watch from a distance or from memory — she is present, always, in every ride we take, every decision we make, every time a new member reads these words for the first time. She is the great Shizuka Samurai — eternal Xtreme Vixen — and she is always watching over this pack.

She extended her hand to me as a brother club. She blessed the Ghostpack into existence. She gave us our colors — purple and white — her colors, shared in love, shared in honor, shared in the bond we built together. And she gave us the XV on our patch, so that no matter how large this club grows, no matter how many years pass, every set of eyes that lands on those three wolves will know where we came from and who made us possible.

That is the Ghostpack origin story. It is a love story, really. Not the romantic kind — the deeper kind. The kind forged on two wheels, built through trust, sealed with a blessing from someone who is legend and who walks among us still — eternal, present, watching.

“Without the Xtreme Vixens there is no Ghostpack. Without Shizuka Samurai, there is no me. And so her name lives on our backs — eternal.”

Now I want to speak to you directly — whoever you are, wherever you are in your journey with this club.

Whether you found this Bible as a hang-around who just got invited to your first ride, a Prospect sweating

through their first six months, or a full patched member who has worn these colors for years — this document was written for you. All of you. It is my voice speaking to yours across whatever distance of time separates us.

I built this club because I believed in the power of the pack. I believed that people who ride together, who show up for each other, who hold the line back to back — they are capable of something extraordinary. Not just on the road. In life. In the moments that test you and the moments that define you.

What I am handing you is not just a set of rules. It is a way of living. A code. A promise. And it starts with this:

I am not alone. I am Ghostpack.

— Sleepywolf, Founder, Ghostpack RC Nation

The Ghostpack Affirmation

Before we go any further, I want you to read this. Then I want you to read it again. Then I want you to memorize it and say it every morning before your feet hit the floor. This is not decoration. This is the heartbeat of this club.

To be repeated daily — hang-around, Prospect and full patched member alike.

I will always be there for my brother or my sister — in sickness and in health, in life's peace and in life's war, alongside each other in gentle times, and back to back against those who challenge us, without condition and without hesitation. The power lies in the pack, not the individual. That is where I find my strength. That is where I take refuge in struggling times, when the

sun shines high in the sky, and when the winds and rain scream, shaking the earth around us. I will never rely solely on my own judgment alone, knowing that the wisdom and power of the pack is always behind me — as I am always behind them. I am not alone. I am Ghostpack.

Chapter 1— What Is the Ghostpack RC

In My Own Words

I want to tell you what the Ghostpack is — not in legal terms, not in the language of paperwork, but in the way I think about it when I am out on the road alone at two in the morning and the world is quiet and the engine is the only thing talking.

The Ghostpack Riding Club is a family. Full stop. It is a group of people who love motorcycles the way some people love breathing — not as a hobby, not as a weekend activity, but as a fundamental part of who they are. And it is a group of people who have agreed, formally and with full understanding of what that means, to be there for each other in a way that most people never experience outside of blood family.

We carry the designation of Riding Club. But make no mistake — we hold ourselves to the standard of the traditional MC world. We operate with the same codes, the same protocols, the same respect and the same expectations. We are an RC in name. We are a pack in every other sense.

What We Are Built On

• God. Family. Job. Ghostpack. In that order. Always.

• We ride like nomads. We are not a clubhouse sitting club. We live on two wheels.

• We give every member written bylaws. No one is above them. Not me. Not anyone.

• We elect our leaders democratically. There are no kings here.

• We handle our problems through fair process. Every member gets to face their accusers.

• We never initiate violence. But we will always defend ourselves and one another as a pack.

• We never engage in illegal activity. We are 99%ers. Law-abiding. Always.

• We never steal from each other, lie on each other or pursue a brother or sister's partner.

• We never speak badly about each other — past or present. Address it directly, with love.

• We prospect every member. No exceptions based on prior rank or reputation elsewhere.

• We wear our colors with pride and with the full understanding that they belong to all of us.

The Order of Our Lives

I will say this plainly because it matters: the Ghostpack will ask things of you. Your time, your energy, your presence, your loyalty. And you will give those things gladly because you love this club. But never at the expense of your God, your family or your livelihood. A member who loses their family or their job for this club is not a good member — they are a member who got the order wrong. Keep it straight. God. Family. Job. Ghostpack.

The XV — Our Sacred Roots I already told you the story at the beginning of this Bible. But I want to say it again here because I need you to understand what those two letters on our patch mean every single day you put that cut on your back.

The XV is the Xtreme Vixens MC. It is Shizuka Samurai — eternal — who took a young wolf pup under her wing and gave him everything he needed to build this. It is purple and white — our colors — her colors, given in love. It is a blessing extended as a brother club. It is the reason this club exists at all. And she is still here. Watching. Eternal.

“Every time you put on that cut, you ride with her. Shizuka Samurai is eternal. She is always watching. Honor that. Every single time.”

The XV on our center patch shall never be removed, altered or replaced — regardless of what configuration this club takes, what chapter it expands to, or how many years pass. It is permanent. It is sacred. It is non- negotiable.

Chapter 2 — Understanding the MC World

What is a Motorcycle Club

A motorcycle club — MC — is one of the most significant commitments a rider can make. It is a group of motorcycle owning and riding individuals who bond together as brothers and sisters, agreeing to adhere for the rest of their lives to the Biker Set lifestyle, culture, protocols, customs and traditions. They ride, live, laugh, love, cry and grow together — no longer as individuals but as ONE extended family, under a code of conduct and a unified flag worn on a vest known as a cut. Until death do them part.

The Ghostpack RC holds itself to most of those same standards. We are not a casual group. We are not a social club. We are a riding family that takes the culture of the MC world seriously and conducts itself accordingly.

The 99%er Standard You will hear the term 99%er in the MC world. This refers to the vast majority of motorcycle clubs that are traditional, law-abiding organizations built around the love of riding and brotherhood. The Ghostpack is a 99%er club. We are not outlaws. We are not affiliated with any criminal enterprise. We are riders, builders, professionals, tradespeople, parents and community members who happen to love the road and chose to love it together.

Know this and carry it with pride. When someone sees your patch and makes an assumption, your conduct will correct it. Your behavior is the most powerful statement this club will ever make.

How Clubs Are Generally Organized

I want to give you a general understanding of how clubs in the MC world are typically structured — not to reveal our own internal workings, but so that when you are on the Set and you encounter another club, you understand who you are speaking to and what respect looks like in that context.

Most traditional clubs operate with a President at the helm — the elected servant and spokesman of the membership. Below them you will commonly find a Vice President who keeps the day-to-day running smoothly. A Sergeant-at-Arms handles security, discipline and the enforcement of bylaws. A Road Captain moves the pack from point to point safely and efficiently. A Secretary handles the administration and correspondence of the club. A Treasurer manages the club's finances. Some clubs also have a Public Relations Officer who manages the club's community facing presence.

These are common roles across the MC world. Understanding them means you know how to address people correctly, how to navigate introductions and how to show the right level of respect to the right person in the right moment. That matters on the Set.

Church

In the MC world, club meetings are referred to as “church” or “going to church.” This is not a casual term — it reflects the sacred importance that the MC places on its internal gatherings. Church is where the family handles its business. It is private, it is serious, and what happens in church stays in church.

Church is where decisions are made, concerns are raised, the club's finances are reviewed, members are

heard and the direction of the club is shaped by the collective voice of those who have earned the right to be in that room. It is democracy in its purest form within the MC world — every full patched member has a voice and that voice matters.

As a hang-around you will not attend church. As a Prospect you may be present for portions of it, at the club's discretion. As a full patched member it is one of your most important obligations. Show up. Be present. Speak when you have something to say. And always — always — keep what happens there inside the family.

The Biker Set

The Biker Set — or simply “The Set” — is the world that bikers who adhere to MC protocol and lifestyle inhabit and share. It is not a place. It is everywhere bikers gather — rallies, charity rides, bike shows, hotel biker weekends, Sturgis, the National Biker Roundup, gypsy runs, and thousands of events across this country every year. Wherever bikers living the life gather — you are on The Set.

The Set is a world with its own rules, its own hierarchy, its own etiquette and its own memory. It remembers who showed up with respect and who did not. When you wear the Ghostpack patch you are on The Set every time that cut touches your back. Conduct yourself like you know that.

The Dominant Club

Every region has a dominant motorcycle club — the most established and powerful presence in that area. I am not going to pretend that world does not exist, because it does and you need to know about it. The dominant club in any area has influence over the clubs that operate there. They may bless a new club or they may not welcome them at all.

The Ghostpack operates with full awareness of this reality. We do not seek conflict with anyone. We move through the Set with respect, with the humility of people who know who they are, and with the confidence of a club that has nothing to prove and everything to protect. If you ever find yourself in the presence of a dominant club — greet them, respect them, keep it moving. Do not try to make a name for yourself. Do not say something foolish. Represent this pack with dignity at all times.

Chapter 3 — The Hang-Around

If you are reading this as a hang-around — welcome. Someone in this club saw something in you worth inviting in, even at this early stage. Do not take that lightly. And do not mistake it for membership. You are a guest. A valued one. But a guest nonetheless.

This is the beginning of what could become one of the most significant commitments of your life. Or it could be a brief chapter that ends here. That is entirely up to you. What follows is everything you need to know to make this work.

What Being a Hang-Around Means

“Hang-around” is the official designation for a person who has been formally acknowledged by the Ghostpack as someone seeking to learn more about this club for the purpose of prospecting. You can ride with us and spend time around us without being a hang-around. When you become a hang-around, the club has formally said: “We see you. We are paying attention. Show us who you are.” The Hang-Around period lasts a minimum of four months. Four months does not mean automatic advancement. Time gives the Pack the opportunity to know you and gives you the opportunity to know us. The calendar alone earns nothing.

As a hang-around you will be treated with the same expectations as a Prospect in many cases. You will be assigned tasks. You will be observed. You will be assessed — not always openly, but always honestly. The way you carry yourself right now, before you have ever been voted in, tells us more about you than almost anything else ever will.

Hang-Around Behavior & Etiquette

For Hang-Arounds:

• Always conduct yourself with respect — toward every member, every Prospect and every person

you encounter in our presence.

• You are always being watched. Not with suspicion — with discernment. We are getting to know you.

• Show up when you say you will show up. Reliability is one of the first things we notice.

• Do not speak about the club to people outside of it. You are not yet a member and have no business

sharing what you observe.

• Do not make demands, suggestions or complaints about how the club is run. You have not earned

that right yet.

• Do not chase romantic interests at club events. Your focus should be entirely on the club and the

people in it.

• Negative behavior on social media connected to this club will end your hang-around period

immediately.

• Bad attitudes, poor temperament or a lack of pack mentality will result in the end of your journey here.

• Dress and present yourself with the dignity that this club's presence demands.

• If you have a question or concern, bring it to the member who is sponsoring or shepherding your hang-around period. Do not go over their head.

At Events and External Gatherings

When the Ghostpack attends external events or gatherings where other clubs are present, your role as a hang-around is simple: observe, listen and stay close. You are not expected to engage in conversations with members of other clubs. This is not a punishment — it is one of the most valuable things you will do in this entire process. Watch how experienced members move. Watch how they greet people, how they carry themselves, how they handle situations. Everything you see is a lesson.

You are always being watched — by us and by others. Even as a guest you represent the Ghostpack the moment you walk through the door beside us. Conduct yourself accordingly.

Introductions as a Hang-Around

When introductions are made at any gathering, the order is always as follows:

President → Vice President → Officers → Prospects → Official Hang-Arounds → Guests

You will always introduce yourself last. When your moment comes, keep it simple and respectful: “I'm [Name], a hang-around with the Ghostpack RC, [City]. Good to meet you.” That is it. No embellishment. No trying to sound important. Humility at this stage is one of the most powerful things you can demonstrate.

A Word to You Directly

I want to be straight with you. This process is not designed to break you down. It is designed to find out who you really are when things are not easy. Because this pack will one day be asked to stand beside you in moments that are not easy. And we need to know — before we make that commitment — that you are someone worth standing beside.

Act like a Prospect. Conduct yourself with honor. And soon you will be one.

Chapter 4 — The Prospect

If you are reading this as a Prospect — you have already done something significant. You were voted in. A room full of people who take this seriously looked at what you showed them during your hang-around period and said: yes. That matters. Do not forget it.

But let me also be honest with you: this is where it gets real. The prospectship is the most important period of your club life. What you do in these months — how hard you work, how humbly you carry yourself, how much you learn, how much you give — will define how you are received when you cross over. And it will shape who you are as a full patched member for the rest of your life in this club.

What is a Prospectship

Your prospectship is a minimum of eight months and no more than one year. Completing eight months does not guarantee crossover. Time is the minimum opportunity to demonstrate who you are; it is not a promise of advancement. Before receiving your full patch, you must earn the confidence and affirmative vote required by the Ghostpack Bylaws. That means your job is not just to impress the members you like — it is to earn the respect of every member in this club, including the ones who challenge you.

You will be addressed by your first name throughout your prospect period. Upon crossover, the club may offer you a road name. If one is given, it is yours to accept or decline. If none is given, you are welcome to carry your own or simply ride under your name. That choice belongs to you.

What the Prospectship Will Ask of You

Let me give you your job description straight. No softening.

1. Serve this club as best you can, every single day, for as long as your prospectship lasts.

2. Learn everything you can about the Ghostpack — its history, its purpose, its mission, its culture. By crossover you should be a Ghostpack historian.

3. Learn every member of your chapter. Not just the ones you like. All of them.

4. Learn the Ghostpack bylaws nearly word for word. If you cannot recite them at crossover, you have failed yourself and this club.

5. Learn how to ride in the pack — safely, precisely, with discipline. The pack's movement reflects the character of this club.

6. Learn how to escort and protect the President and officers. Their safety is a sacred duty.

7. Never take a political side in internal club matters while you are a Prospect. You need 100% of the vote. Remain neutral. Serve the whole pack.

8. Always volunteer. Never wait to be asked. If something needs to be done and you can do it, do it.

9. Be present for sick or injured members. Show up at hospitals. Run errands. Check in. This is what pack means.

10. Make yourself available when you are off duty. Let the club know you are ready to ride or help.

11. Learn the members of your chapter and make a deliberate effort to build relationships with Ghostpack brothers and sisters beyond your own backyard. As this Pack grows, never allow geography to turn family into strangers. for years.

What the Ghostpack Promises You

We will never ask you to do anything illegal, demeaning or physically harmful. We will never haze you in a way that strips your dignity or disrespects your humanity. We will never ask you to risk your life or your freedom to earn this patch.

We will ask things of you that are hard. We will test your patience, your humility and your commitment. But we will also ride alongside you. We will do the work with you. Ghostpack members will never ask you to do anything we would not do ourselves — and often we will do it beside you, to show you that in this pack, you are never alone.

Prospect Behavior & Etiquette

For Prospects:

• Remain silent during all official club meetings and public outings unless called upon. All communications in official settings go through your sponsor.

• When called upon to speak in church, stand, acknowledge the room, introduce yourself by first name and status, say what you need to say clearly and concisely, thank the President and the club, and sit down.

• Never interrupt the President while they are speaking or in conversation.

• Never disrespect an officer or member of another club — ever.

• Never lay your colors on the ground or hand them to anyone outside this family.

• Make sure your patches are always sewn on tightly and secured properly.

• Never pack a passenger on your bike during club events. Your backseat belongs to the club during that time.

• Never chase romantic interests while on the Biker Set during club activities. Your focus is the pack.

• Never engage in negative social media activity of any kind connected to this club.

• Never disclose club business to anyone outside the Ghostpack family — not a partner, not a parent, not a best friend.

• When taking photos, never wear your colors backwards. Remove them, turn them around and hold them properly.

• Never speak negatively about any person or any club while on The Set — even in what feels like a private conversation.

• Stay close to your brothers and sisters on The Set. You are still learning the landscape.

• Keep a small journal. Write down questions as they come. Go over them with your sponsor.

Introductions as a Prospect

When you introduce yourself at any gathering or event, be clear, be proud and be accurate:

“Good [time of day]. I'm [Name], a Prospect with the Ghostpack RC, [City] Chapter. Good to meet you.”

Simple. Clean. Respectful. That is all it needs to be. Let your conduct do the rest of the talking.

Your Sponsor

Your sponsor is your lifeline. They are the senior member assigned to guide you through this process and ensure your prospectship is conducted with fairness, education and integrity. Stay in constant contact with them. Ask them thousands of questions. Write down what they tell you. Make yourself their shadow. They took on the responsibility of bringing you to this door. Honor that by being the most dedicated and focused Prospect they have ever guided.

Your sponsor is your crowned jewel in this process. Use their knowledge and experience to propel yourself forward into the pack.

A Word to You Directly

I want you to get something in your heart as early as you possibly can. Say it out loud if you have to:

“It is not about me. It is about the Ghostpack and every brother and sister within it.”

The sooner you can say that and truly mean it, the sooner you will do something outstanding for this club. One hard riding, fully committed Prospect can turn a club around. Wake up every day asking what you can do to make this pack better. Ride hard. Show up. Never whine. And never wait to be told.

Make the difference in the Ghostpack by loving this club as much as you love yourself — because when you earn that patch, this club will be collectively yours. Care about it exactly that much.

Chapter 5 — The Full Patched Member

If you are reading this as a full patched member — you made it. Every member of this club said yes to you. You earned every stitch of what is on your back. I am proud of you. Now let me tell you what it means.

Crossing over is not the end of anything. It is the beginning of everything. The prospectship was your audition. This is the performance — and it runs for the rest of your life as a member of this pack. The standards do not lower when you get your

patch. If anything, they rise. Because now you are the standard.

The Once-a-Prospect Mentality

Every full patched member of the Ghostpack carries what I call the once-a-Prospect-always-a-Prospect

mentality. The humility, the service, the hunger, the willingness to do the work — these are not prospect traits. They are Ghostpack traits. They belong to every member of this club for life.

The moment you think your patch exempts you from showing up, from doing the work, from treating a

hang-around with fairness or a Prospect with patience — you have lost your way. Come back to the Affirmation. Start there.

Full Member Behavior & Etiquette

For Full Patched Members:

• You represent every person who wears this patch every time you put that cut on. Every single one of

them.

• Never speak badly about a brother or sister — past or present, publicly or privately. Address issues

directly, with love and the intention of resolution.

• Never disclose club business outside the family. What happens in this pack stays in this pack.

• Never use your patch as a license for bad behavior. It is a license to demonstrate what we stand for.

• Show up for sick and injured brothers and sisters. A full patched member who disappears when

things get hard is no brother or sister at all.

• Vote in every club matter you can be present for. Your voice is the club's direction.

• Never take political sides in a way that permanently damages relationships within this club. Work

through disagreements — do not weaponize them.

• Mentor your Prospects and hang-arounds the way Shizuka Samurai mentored me. With investment,

with patience, with love.

• Never conduct yourself on the Set in a way that forces another member to answer for your choices.

• Keep your bike maintained. Keep your dues current. Keep your commitment strong.

• When in doubt about whether something is appropriate — it probably is not. Trust that instinct.

You Are the Ghostpack

Every time you put on that cut, you are not just a member of the Ghostpack. You are the Ghostpack. Every person who sees that patch forms an impression of this entire club based on what you do next. One misstep

can put every member's name on a front page none of us asked for. One outstanding moment can build the reputation of this club in a community for a generation.

Before you do something stupid, illegal or thoughtless in your colors — stop. Think of every brother and sister who trusts you with their name. Think of what was built to get here. Think of Shizuka Samurai — eternal, always watching — and ask yourself if this is the wolf she saw when she believed in us. Then act accordingly.

The Best Interest of the Pack

There will be moments in your time in this club when you disagree with a decision. When a vote does not go your way. When something is done differently than you would have done it. In those moments I ask you to remember this:

“It means you suck up your disappointments and continue to seek compromise and success in helping the Ghostpack become all that it can be. It means you would rather step down than stand against the pack.”

The Ghostpack is bigger than your ego, bigger than your frustrations and bigger than any one individual. If you ever reach a point where you cannot give it your best — step back before you do damage. That is the most honorable thing a member can do.

Chapter 6 — Respect, The Set & Protocol

The Foundation

I want to talk to all three of you now — hang-around, Prospect and full patch alike. Because what I am about to say applies to every single one of you equally, from day one until the day you hang up your cut for the last time.

“The basic tenant of the Biker Set is RESPECT. On the Biker Set, everyone respects everyone.”

This applies to everyone we interact with — regardless of club affiliation, independent status, patch or no patch, known or unknown, on the Set or off it. Any time the Ghostpack or any of its members disrespects another person or club — there will always be an issue. And any time the Ghostpack or its members are disrespected — that too will always be an issue. We move through this world with respect as our foundation. Give it freely. Protect it fiercely. Never compromise it for anyone.

Conduct on The Set

Your job on The Set is simple: bring no discredit upon the Ghostpack. Make The Set impressed by the conduct of this club every time we are on it. Here is how that looks in practice:

• Stay close to your brothers and sisters. You are stronger together than apart.

• Never start a fight or any form of conflict on The Set. You could launch this entire club into a

situation nobody asked for.

• Never speak negatively about any person or any club on The Set. The person sitting nearby could be

more connected than you know. Keep it positive. Keep it moving.

• Never put your colors on the floor, the back of a chair or anywhere other than your back or a trusted

member's hands.

• When taking photos, remove your colors and hold them facing outward. Never wear them

backwards. That is a sign of disrespect that other clubs will notice.

• Treat officers of other clubs with the same respect you show our own. Acknowledge Presidents by

their title. Never interrupt two Presidents in conversation.

• Keep a small journal on you. Write down questions. Go over them with your sponsor or a senior

member.

• Watch everything. Listen to everything. Miss nothing.

Social Media

I need to speak plainly about this because we live in a world where a single post can travel further than any

of us ever intended and do more damage than any of us can undo.

• Never post anything negative about this club, any member, any club or any person connected to this

world on any platform.

• Never disclose club business, plans, events or internal matters on social media.

• Never post anything while wearing your colors that brings discredit to this club.

• Never engage in public disputes, arguments or callouts involving the club or the Biker Set on any

platform.

• What you post reflects on every person in this pack. Think about all of them before you hit send.

• If you are ever unsure whether something is appropriate to post — it is not. Do not post it.

Confidentiality

Club business stays in the club. Full stop. No exceptions for anyone. Not partners. Not parents. Not best friends. Not anyone who has not prospected and been voted in. If it is discovered that you have shared club business outside of this family the consequences will be serious. The only way something stays a secret is if you never say it out loud. Protect this club the way it protects you — with loyalty, discretion and quiet confidence.

Chapter 7 — Life, Family & the Road

Your Partner and the Ghostpack

I want to talk to you about the people you love outside of this club. Because how you handle those relationships while living this life matters — both to you and to us.

The riding club life can be difficult for those outside of it to understand. There are rules and protocols that civilians simply do not understand — commitments and codes that are foreign to those who have not lived this life and cannot yet see the value in what we swear to uphold. Your partner may feel threatened by the time this club asks of you. They may not understand the brotherhood. They may wonder why grown adults swear loyalty to a group of people the way we do.

Before you bring your significant other around this club, know the club yourself first. Earn your patch. Learn the culture. This is not to keep them away — it is to give you the confidence of knowing the character and judgment of those around you, so that when you do bring them in, you can do so with pride and without hesitation.

Partners are always welcomed to ride with us and be part of our family events. The Ghostpack is a family and families include the people we love. But keep club business inside the club. A strong home makes a stronger member. A stronger member makes a stronger pack.

Your Friends and the Ghostpack

Friends can become jealous when they feel left behind by your commitment to something new. They may feel like you have forgotten them. They may compete for your time. Let them know you are joining a brotherhood and sisterhood and that it does not diminish what you mean to each other. Nurture those friendships. A full member of this pack carries their life forward with more strength, more family and more purpose — not less of the life they built before the patch.

Your Job and the Ghostpack

A word of caution offered with love: wearing colors is not embraced by all employers and it is not always understood by the civilian world. Exercise wisdom about when and where you wear your cut. The parking lot of your job is not the place to put your colors on. Wait until you are far enough away. Keep club business separate from your professional life.

That said — this is your life and your journey. If you work somewhere that genuinely does not matter, wear your colors and ride happy. Go in with your eyes open, fully prepared to own your choices. A strong member is a stable member. The pack needs you healthy, employed and free.

No Bike, No Pack

You need a motorcycle to ride with us. It does not matter what type, size or brand — all that matters is that you can ride and keep up with the pack. Approach this club with a motorcycle, a valid license and the ability to contribute as a riding member. Every tradesman needs their tools. Your bike is yours.

If you are involved in an accident during your hang-around or prospect period, that is a separate matter.

Club leadership will work with you to find a path forward because we believe in bonds that go beyond the

bike. But those bonds begin with having a bike in the first place.

Bike Maintenance

This is not optional and I will not dress it up. Check your tire pressure weekly. Measure your tread biweekly. Check your chain tightness weekly. Keep your oil changes and maintenance records current. Keep your insurance and license plates up to date at all times.

The pack rides as one unit. When your bike fails on the road it does not just affect you — it puts every rider behind you at risk. A well maintained bike is a reflection of a disciplined rider. Your bike is your tool. Keep it sharp. Your brothers and sisters are counting on it.

Chapter 8 — Brotherhood & Sisterhood in Action

What Showing Up Really Means

I want to talk about what brotherhood and sisterhood actually looks like when things are not a party. Because anyone can show up when there is a good ride and a clear sky. The pack is defined by what happens when someone is in a hospital bed, when someone loses their job, when someone is grieving, when someone is scared.

Show up at hospitals. Sit outside rooms. Run errands for people who cannot run them for themselves. Visit brothers and sisters recovering at home. Check in — not just once, but consistently. The family that shows up in the dark is the family that earns the name.

Never rely solely on your own judgment in hard times. The pack is behind you. Lean on it. And when someone else needs to lean — make yourself the wall they lean against. That is what the Affirmation means when it says back to back against those who challenge us.

Never Speak Ill of Brothers or Sisters

Some of the people who built what you are walking into dedicated years of their lives to it. Whatever their shortcomings may have been, they held these colors down so that one day you could. Speak of them with respect. Speak of all your brothers and sisters — past and present — the way you would want to be spoken of when you are no longer in the room.

This does not change with seniority. Old or new, officer or member — no one in this club speaks badly about another member. Ever. If there is an issue, address it. Directly. With love. With the intention of resolution not destruction. That door is always open. Choose it every time.

Disloyalty

Disloyalty to the Ghostpack will never be tolerated. Keep club business inside the club. Never pursue a brother or sister's partner. Never steal from this club or any member of it. Never lie on the club or misrepresent its name. Never use the club as a cover story for personal misconduct.

Guard the reputation of this club with everything that you are and in everything that you do. We built this together. Protect it the same way.

The Power of the Pack

Wherever Ghostpack grows, we remain one Pack. Geography may give us different places to call home, but it never separates the family. A member should be proud of where they come from while remembering that the patch on the back of a brother or sister means more than the distance between them.

We show up for one another. We support one another's communities. We ride together, serve together and build relationships beyond our own backyards. No Ghostpack member should ever look at another Ghostpack patch and see a stranger.

Local pride. Regional loyalty. Pack first.

The power lies in the Pack, not the individual.

Community and Reputation

I want this club to be known in every community we ride through. Known as the people who showed up.

Known as the pack that did the charity ride, that helped rebuild after the storm, that showed the

neighborhood that riders are not what the stereotypes say they are.

It is the responsibility of all Ghostpack RC members to protect the club's culture and its people — member and non-member alike — to secure our future and reputation for what we stand for, always. How you carry yourself from day one determines how far this club goes. We are not just building a riding club. We are building a legacy.

Chapter 9 — Sacred Traditions

The Last Rev

I hope you never have to use this for a long time. But you will use it one day. And when you do, I want you to know exactly what to do and exactly what it means.

The Last Rev is the sacred ceremony we perform to honor a departed brother or sister. The Road Captain, standing beside their bike, starts their engine. Every member present starts their engine in turn. The Road Captain then revs their engine three to five times — and everyone joins together, with one exception. The Tail Gunner waits.

When the Road Captain stops and all bikes fall to an idle, the Tail Gunner delivers the last rev alone. When it fades, every member mounts their bike and rides away as quietly as possible.

This ceremony is performed at the cemetery after the burial, or at the funeral home after the final viewing if

there is no cemetery service.

The significance is this: we are alerting heaven that a rider is on their way. That one of ours is coming to ride roads none of us have seen yet. It is the most beautiful thing we do. Learn it. Know it. Honor it.

Grave Tending

Benjamin Franklin once said that you can tell the morals of a culture by the way they treat their dead. I believe that.

It is a sacred custom of the Ghostpack to tend the grave sites of brothers and sisters who have ridden on. We gather at the grave site. We clean it and tidy it. We pour a favorite beverage at the headstone. We speak prayers and tell stories. We remember who they were to us and what they built.

Tend to your departed brothers' and sisters' graves the way you would want yours to be tended. With love. With dignity. With the full respect of the pack behind you.

April 4th April 4th is our day. It is the day this Bible was written. The day these words were first spoken into existence. The day the Ghostpack was formally born as a living, documented, committed family.

Every year on April 4th we gather. We reflect on what we have built. We renew our commitment to this pack and to each other. We elect our leaders. We look forward.

April 4th is sacred. Observe it. Honor it. And never let it pass without remembering where this all started — with a young wolf pup, a great teacher who believed in him, and a dream of something that could last beyond either of them.

Chapter 10— The Colors & Identity

What the Cut Means

The cut is the vest. The colors are the patches on its back. Together they are the most visible symbol of who you are and what you have committed to. The term “colors” comes from the early biker tradition of cutting the collars and sleeves from denim or leather jackets. It is one of the most sacred symbols in motorcycle club culture.

When you put that cut on, you are not just wearing fabric and thread. You are wearing the story of this club, the sacrifice of the people who built it, the blessing of Shizuka Samurai — eternal Xtreme Vixen — who made it possible, and the promise you made to every person whose colors match yours. Handle it accordingly.

The Ghostpack Colors

Purple and white. Our colors. Given to us in love by the Xtreme Vixens MC — by Shizuka Samurai, the woman who took me in and taught me everything, who extended her hand as a brother club and blessed this pack into existence. She is eternal. She is always with us. She is always watching.

We wear these colors not just because they are beautiful — though they are. We wear them because they mean something. Because they are a living tribute to where we came from and a promise that we will never forget it.

The Back Patch

The Ghostpack RC wears its colors according to the traditions, identity and approved configuration of the club.

The permanent foundation of our visual identity is the GHOSTPACK name, the center patch featuring the three wolves with XV behind them, and the purple and white colors. The XV remains forever acknowledged.

Geographic identifiers may be worn to identify the home area or Region represented by a member. Geographic identification represents where members call home. It shall never be interpreted as a claim of ownership, control or exclusivity over a geographic area.

Whatever configuration the club carries, the GHOSTPACK name, center patch, XV acknowledgment, and purple and white colors remain the foundation. We are Ghostpack — always.

Ownership of Colors

The Ghostpack RC patches and colors always remain the property of this club — not the individual. If you ever depart this club for any reason, every item bearing the Ghostpack name or logo must be returned immediately. This includes your cut, patches, shirts, hats, rings — everything. It does not matter what you paid for them. You will not be reimbursed. This is a core agreement made before you ever accept your colors. Know it going in. There is no compromise on this point.

You Are You

Let me say this clearly because it matters: the colors do not make you who you are. They do not make you tough. They do not make you important. They do not transform you the moment you put them on.

You are who you are long before that cut touches your back. Bring what you have to this club — your skills, your heart, your character, your commitment. Stay humble. Show up. Build your legacy here brick by brick. Become great within this pack and the pack will be greater because of you. That is how it works. That is all it has ever been.

Chapter 11 — Biker Glossary

Know your world. Know your terms. When you walk onto the Set you should be able to follow every conversation, understand every reference and navigate every room with confidence. This glossary is your starting point. It is not exhaustive — the Set will teach you the rest.

1%er — A designation historically associated with motorcycle clubs that operate outside mainstream society. We acknowledge this world exists. We operate entirely separate from it. 5%er — A member of a Motorcycle Rights Organization (MRO). Only five percent of motorcyclists dedicate their time to protecting the rights of the other ninety-five percent through legislation and advocacy. 80/20 Rule — A requirement by some MC councils that 80% of a club's members must have operational motorcycles at all times, verified by a bike count. AMA — American Motorcyclist Association. ABATE — American Brotherhood Aimed Toward Education. Fights for biker rights and champions pro-rider legislation across the country. Ape Hangers — Tall handlebars that place a rider's hands at or above shoulder height. Backyard — Where you ride most often. Never disrespect it. Baffle — Sound deadening material inside a muffler that quiets exhaust noise. Bike Count — A method used by some councils to verify that club members have operational motorcycles. All members show up on their bikes to be counted. Black Ball List — A coalition-enacted list notifying other clubs not to support a non-compliant chapter or

allow it to participate in Set functions. Blockhead — The V-Twin Harley-Davidson engine, 1984–2000. Boneyard — Salvage yard for used bikes and parts. Brain Bucket — A small beanie-style helmet. Usually not DOT approved. Broken Wings — A patch indicating the rider has been in a crash. Burnout — Spinning the rear wheel while holding the front brake. Conducting burnouts at another club's space is disrespectful. Be mindful. Cage — Any vehicle with four or more wheels. Not a motorcycle. Cager — The driver of a cage. Often inattentive to riders on the road. Chopper — A bike with the front end raked or extended out. Chromeitis — The condition of never being able to stop buying aftermarket chrome accessories. You know who you are. Church — The club meeting. “Having church” or “going to church.” Sacred, private, and what happens there stays there. CLAP — Chrome, Leather, Accessories, Performance. Clone — A motorcycle built to resemble a Harley-Davidson without actually being one.

Club Hopping — The frowned upon practice of switching club memberships. Traditional clubs have very little tolerance for this. Road Name / Handle — A name given by the club to a member based on character, quirks or a noteworthy moment. In the Ghostpack, offered at crossover. The choice to accept it is always yours. Colors — The unique club back patch or patches that identify a member and their club. Counter Steering — Turning handlebars in one direction while the bike goes the other way. Learn this for safety. Crash Bar — An engine guard that protects the engine if the bike goes down. CreditGlide — A RUB's motorcycle. Crotch Rocket / Rice Burner — A sport bike. Custom — A custom built motorcycle. Cut — The vest containing the club's colors. Named for the early practice of cutting sleeves off denim jackets. DILLIGAF — “Do I Look Like I Give A Fuck.” DOT — Department of Transportation. Drag Bars — Low, flat, straight handlebars. Evo / Evolution — The Evolution engine (V-Twin, 1984–2000). Fathead — The Twin-Cam engine (V-Twin, 1999–Present). Fender / Fender Fluff — A passenger who is not an Old Lady but simply someone invited along for a ride. Flathead — The Flathead engine (V-Twin, 1929–1972). Flash Patch — A generic patch sold at meets and bike shops. Not club colors. Flying Low — Speeding. Forward Controls — Front pegs, shifter and rear brake control moved forward, often to highway pegs. Freedom Fighter — A MRO member dedicated to preserving riders' rights and freedoms. FTW — “Fuck the World” or “Forever Two Wheels.” Get-Back-Whip — A leather braid with a hard metal clip attached to the brake or clutch handle. An ornamental decoration that can serve a defensive purpose. Illegal in some states. Hard Tail — A motorcycle frame with no rear suspension. Hang-Around — A person formally acknowledged by the club as seeking to learn more for the purpose of prospecting. The first step of the journey. HOG — Harley Owners Group. Independent — A biker not in a club but known and respected on the local Biker Set. Ink — Tattoo. Ink-Slinger — Tattoo artist. Knuck / Knucklehead — The Knucklehead engine (V-Twin, 1936–1947). KTRSD — “Keep The Rubber Side Down.” Ride safely.

LE / LEO — Law Enforcement Officer or Official. Lick and Stick — A temporary pillion back seat placed on the fender via suction cups. MC — Motorcycle Club. MM — Motorcycle Ministry. Moonlight Mile — A short adventure away from camp with someone special. MRO — Motorcycle Rights Organization. Protects the rights and freedoms of riders. MSF — Motorcycle Safety Foundation. OEM — Original Equipment Manufacturer. Old Lady / Ole Lady — The girlfriend or wife of a rider. Definitively off limits to everyone else. Always. OMC — Outlaw Motorcycle Club. On Ground / On Two — Showing up on a motorcycle rather than in a cage. Pan / Pan Head — The Pan Head engine (V-Twin, 1948–1965). Patch — The back patch representing the colors of a club. Patch-Over — When a club changes patches through a peaceful agreement. Acceptable and not looked upon unfavorably in most cases. Pillion Pad — Passenger seat. Pipes — Exhaust system. PRO — Public Relations Officer. Probate / Probie / Probationary — A member serving probation until voted into full membership. Prospect — A member serving their prospectship until voted into full patched status. Prospectship — The period — minimum six months to one year — a Prospect serves before a full membership vote is held. Rags — Club colors or a cut. Rat Bike — A bike that has not been maintained or cared for. Do not arrive on one. RC — Riding Club. The Ghostpack RC holds itself to the full standard of traditional MC culture. Revolution — The Revolution engine, Harley-Davidson's first water-cooled V-Twin (2002–Present). RICO Act — Racketeer Influenced and Corrupt Organizations Act. Originally passed to combat organized crime. As a law-abiding club this law has no relevance to our activities — ever. Riding Bitch — Riding as a passenger on the back of a bike. Rocker — A curved patch on the cut designating geographic location or territory. RUB — Rich Urban Biker. Rubber — Tire. Rubber Side Down — Riding safely. Keep both tires on the road. The alternative is a wreck. Run — A road trip on two wheels with your brothers and sisters. Running 66 — Riding without your colors showing. Rare but occasionally appropriate.

Shovel / Shovel Head — The Shovel Head engine (V-Twin, 1966–1984). Shower Head — The Harley-Davidson V-Rod motorcycle motor. Sissy Bar — Passenger backrest. Slab — Interstate highway. Sled — Motorcycle. SMRO — State Motorcycle Rights Organization. Advocates for riders' rights at the state level. Softail — A motorcycle frame whose suspension is hidden, making it resemble a hard tail. Straight Pipes — An exhaust system with no baffles. Tail Gunner —

The last rider in the pack. A position of great responsibility — watches over every rider ahead and delivers the final rev in the Last Rev ceremony. Tats — Tattoos. The Motorcycle Memorial Foundation — Operates the Motorcyclist Memorial Wall. P.O. Box 2573 Wintersville, Ohio 43953. The Motorcyclist Memorial Wall — A biker's memorial wall in Hopedale, Ohio where names of fallen riders are engraved. www.motorcyclistmemorial.com Three-Piece Patch — A back patch design with top rocker, middle insignia and bottom rocker. See Chapter 10 for the Ghostpack's transition caveat. Turn Your Back — A show of ultimate disrespect. Never turn your back on someone on the Biker Set. Twisties — A section of road with increasing, distal, radial turns. The best kind of road there is. Vested Pedestrian — A person wearing club colors who does not own a motorcycle. Not permitted in the Ghostpack. Wannabe — Someone pretending to be a part of the biker lifestyle without doing the work or living the life. Do not be this person. Wrench — Mechanic. XXF-FXX / XXFOREVER — FOREVERXX — A patch worn by club members to represent total commitment to the club and every member within it. For us: Ghostpack Forever. Forever Ghostpack.

Chapter 12 — Riding with Other Clubs

One of the great privileges of this life is that the road connects you to people you would never have found

any other way. At some point you will ride alongside members of other clubs, attend joint events, share the road with patches you do not know and find yourself in rooms where the Ghostpack is a guest. What follows is how you carry yourself in those moments.

When You Are a Guest

When the Ghostpack attends an event hosted by another club, every member and Prospect is a guest of that

club's home. Conduct yourself the way you would want guests to conduct themselves in ours — with gratitude, with respect and with the full awareness that you are in someone else's space.

• Thank the hosting club for the invitation. Acknowledge their President and officers by title upon

arrival.

• Do not rearrange, disrespect or interfere with the hosting club's space, setup or event flow.

• Do not bring conflict, complaints or internal Ghostpack business into a host club's event.

• If the hosting club has rules specific to their space or event — follow them without complaint.

• Represent the Ghostpack in a way that makes the hosting club glad they invited us back.

Riding in a Mixed Pack

When the Ghostpack rides alongside another club in a joint formation, the Road Captains of both clubs shall

agree on formation protocol before the ride departs. Ghostpack members and Prospects shall follow the agreed formation without deviation. No member shall show off, stunt or break formation in a mixed pack. The way we ride in mixed company tells the Biker Set everything about who we are.

If at any point the formation creates a safety concern, the Road Captain has full authority to communicate

the concern and adjust. Safety always supersedes tradition, pride or politics on the road.

Interacting with Members of Other Clubs

When engaging with members of other clubs at events, rallies or on the Set, carry yourself with the quiet

confidence of someone who knows exactly who they are and has nothing to prove. You do not need to impress anyone. Your patch speaks before you do. Let your conduct confirm what it says.

• Greet other club members respectfully. A nod, a handshake, an acknowledgment — these cost

nothing and build everything.

• Never speak negatively about another club's patch, colors, history or members in their presence or

the presence of their associates.

• Never make commitments or representations on behalf of the Ghostpack RC to another club

without leadership authorization.

• If a conflict arises between a Ghostpack member and a member of another club, de-escalate first.

The pack does not need a war it did not start.

• If disrespected by a member of another club, do not react alone. Report it to the President or senior

officer present and let leadership handle it.

• Always introduce yourself clearly — first name, status and chapter. Short, clean and respectful.

A Word on Alliances

Over time this pack will build relationships with other clubs. Some will become allies. Some will become close friends. The Ghostpack does not rush these relationships and does not take them lightly. An alliance is a commitment. It means that when someone calls, we answer. Build those bonds slowly, honestly and only with people and clubs that share the values we ride under. Not every club that smiles at us is our friend. And not every club that challenges us is our enemy. Read the road carefully. Lead with respect. Let time tell you the rest.

Chapter 13 — Sisters of the Pack

I need to speak about this directly because it matters deeply to me and because it is foundational to

everything the Ghostpack stands for.

This club would not exist without a woman. Shizuka Samurai — the founder of the Xtreme Vixens MC, an all- women's motorcycle club — took me in, taught me, believed in me and blessed this pack into existence. The XV on our patch is her legacy. The purple and white on our backs are her colors. The very culture of this club was shaped by her hands.

So let me be absolutely clear about what the Ghostpack is and what it is not. We are not a club where women are accessories, afterthoughts or second-class members. We are a pack. And in a pack, every wolf matters.

Full and Equal Membership

Women in the Ghostpack RC hold full and equal membership. They prospect the same way. They earn their patch the same way. They vote the same way. They hold office the same way. They carry the same responsibilities, the same rights and the same protections as every other member of this club. There is no separate tier, no lesser standard and no ceiling. A sister of the Ghostpack is a wolf — full stop.

Conduct Toward Sisters

Every member and Prospect of the Ghostpack RC shall treat every sister with the same respect, dignity and

brotherhood they would extend to any brother. The following conduct is expected at all times:

• No member or Prospect shall speak to, about or around a sister of this club in a way that demeans,

objectifies or diminishes her standing.

• No member or Prospect shall pursue or attempt to pursue a romantic relationship with a fellow

member's partner, regardless of gender.

• Sisters shall never be asked to perform tasks that would not be asked of a brother at the same level

of membership.

• Sisters on the Set shall be treated with the same protection and loyalty afforded to every other

member. If a sister is disrespected on the Set, the pack responds as a pack.

• Any member or Prospect who sexually harasses, assaults or demeans a sister of the Ghostpack RC

shall be subject to immediate dismissal without appeal.

The Legacy of Shizuka Samurai

I want every sister who ever wears these colors to know something. This club was built on the foundation of a woman's wisdom, a woman's generosity and a woman's belief in something she helped create. Shizuka Samurai is eternal. She rides with every one of us. And every time a sister puts on this cut, she carries that legacy forward in a way that no brother ever can — because she is proof, living proof, that this club has always known that the strongest packs are the ones where every wolf is valued.

Sisters of the Ghostpack — you are not here because we let you in. You are here because you earned it. And because a long time before any of us wore this patch, a great woman showed a young wolf pup that the

road is wide enough for all of us when we ride together with love, with respect and with our colors held high.

“In the Ghostpack there are no half wolves. Every sister. Every brother. Every patch. One pack. One standard. One love.”

A Closing Word from Sleepywolf

I want to end this Bible the way I started it — by talking to you directly. Not as a founder issuing a decree. As a wolf speaking to his pack.

You are holding something that took years to build. Not just the words on these pages — but the road miles, the lessons, the love, and the bond between two people who believed in something before it had a name. That something is in your hands now.

I started as a young wolf pup who overslept too much and had more heart than direction. Shizuka Samurai saw something in me anyway. She took me in. She taught me. She believed in me before I believed in myself. She gave me her colors, her blessing and her trust — and she extended her hand as a brother club so that the Ghostpack could exist. I have spent every day since trying to be worthy of that.

Shizuka Samurai is eternal. She did not leave. She does not fade. She is present in every ride this pack takes, every decision we make, every new member who reads these words for the first time. She watches over this club — always. And I watch alongside her.

“Together — Sleepywolf and Shizuka Samurai — we leave our legacy in your hands. Both of us. Watching. Always.”

What we ask of you is not complicated. But it is everything.

Whether you are a hang-around just finding your footing, a Prospect grinding through the most important

months of your club life, or a full patched member who has worn these colors through everything — this pack is yours. Every wolf in it is yours. Ride for them. Show up for them. Back to back, side by side, in gentle times and in life's war.

And beyond that — beyond the rides and the meetings and the protocol and the traditions — I want you to carry something forward that no bylaw can legislate and no patch can give you. I want you to be the change.

Be innovative. The motorcycle world is alive and it is always changing. The culture we love has survived for generations because people within it were willing to adapt, to evolve, to look at the road ahead instead of only honoring the road behind. Honor where we came from — always. And then look forward. Ask what the Biker Set needs from this generation. Ask what the Ghostpack can do that has never been done. Then go do it.

Adapt to the times. The world around us shifts. Communities change. The people who ride change. The way we connect, the way we build, the way we show up for each other — all of it can evolve without ever losing the soul of what we are. Never be so committed to how things have always been done that you miss the opportunity to do something better.

Be the change you want to see on the Set and in the motorcycle world. If you want more respect — give it first. If you want more unity — build it first. If you want the Biker Set to be a place of honor, community and strength — be that yourself, every single day, every single ride, in every interaction you have wearing these colors or not.

That is the legacy Shizuka Samurai and I are placing in your hands. Not rules. Not a rank. Not a patch. A calling. A responsibility. A love for this culture that we are trusting you to carry forward long after we are done riding the roads we ride now.

Never — not for one single day — forget where you came from, what those two letters on your patch really mean, or who believed in this pack before it had its first member.

I will always be there for my brother or my sister — in sickness and in health, in life's peace and in life's war, alongside each other in gentle times, and back to back against those who challenge us, without condition and without hesitation. The power lies in the pack, not the individual. I am not alone. I am Ghostpack.

Purple & White — Forever Ghostpack RC Nation | Established April 4th — Sleepywolf, Founder | In eternal partnership with Shizuka Samurai, Xtreme Vixens MC
